Regional Office VI

**SUBJECT: Request for Dissemination of Information on Undergraduate Scholarships
in Science and Mathematics for Teacher Education**

Dear Director Uytico:

Special greetings from the Private Education Assistance Committee (PEAC) and Rex Education!

It is with great pleasure to inform you that the PEAC-Rex *Edukampyon: Iskolar Para sa Kinabukasan* in collaboration with select higher education institutions in the regions will be granting 50 undergraduate scholarships in science and mathematics in teacher education this AY 2023-2024.

Launched in 2021, the scholarship program aims to encourage some of our best and brightest students to take up teaching science and math as a profession of choice, thus providing critical support for the country's development by ensuring quality science and mathematics education in private secondary schools.

The scholarship program will cover living expenses of PHP 40,000 per year for the duration of the baccalaureate program with tuition and other school fees as counterpart of University of San Agustin, the partner university in your region.

We would highly appreciate your help in disseminating the attached application form to senior high school students in your region, preferably to those in the STEM track and those from science-oriented high schools. Application forms should be submitted to the University of San Agustin no later than May 15, 2023.

Thank you so much and best regards.

Very truly yours,

Rhodora Angela F. Ferrer
